

# AC Insurance Services Launches Business Property Insurance

December 05, 2016

[AC Insurance Services](#), an insurance agency that is based in West Palm Beach, FL, is proud to announce that they now offer insurance for business properties, which is one of the key forms of insurance that all business owners should consider getting. This includes coverage not just for buildings but also for property signs and even glass. The insurance agency explained that the insurance can write on actual cash value or replacement cost basis.

Pete Steiner from AC Insurance Services says: "A [business property insurance](#) policy will pay for the direct damage or loss to certain types of property. Your premium is based on a variety of factors, depending on the type of coverage's in the policy, for example, the age and construction of a building. The value will have a substantial impact on the premium."

AC Insurance is committed to making sure all their clients get the right insurance policies for their needs. Such needs include the type of situation they want to insure themselves for, the type of client they are, and also what their budget is. The company is proud of the fact that they have a strong focus on affordability, thereby making sure that no business is left uninsured because they can't meet the costs of their policies.

## AC Insurance Services Launches Business Property Insurance

Those who have used the services of the company have been full of praise about the help they have received in finding the right insurance policy for their needs. "Marisol was amazing," says Rafael C.J. on the company's Facebook page. "She was definitely there for our best interest and got a great deal too. Thanks again."

Anyone interested in business property insurance or any other form of insurance policy that AC Insurance Services is able to offer, are encouraged to visit the website at <http://myacis.com/free-quotes/> to get a free, no obligation quotation. This will enable people to determine what types of policies are out there, and which one is most suitable to their specific situation.
